DETAILED ACTION

1. Applicant's communication filed on June 6, 2005 has been carefully studied by the Examiner. The arguments advanced therein, considered together with the amendments made to the claims, are persuasive and the rejections based upon prior art made of record in the previous Office Action are withdrawn. Claims 1, 2, 13, 14, 16, 17, 20, 26, 27 and 38 are amended. Claims 8-12, 21-25, 32-37 and 39-46 are canceled. Claims 47-52 are new. Claims 1-7, 13-20, 26-31, 38 and 47-52 are pending.

Allowable Subject Matter

2. Claims 1-7, 13-20, 26-31, 38 and 47-52 are allowed.

3. The following is an examiner's statement of reasons for allowance: Claims 14, 16-20, 27-31 and 38 are allowed for the reasons made of record in the previous Office Action. Claim 47 is allowable for reasons similar to those of claim 16. Claims 1-7, 13, 15, 26 and 48-52 are allowable for the reasons indicated on pages 14-16 of Applicant's response. As noted by Applicants, the prior art of record does not disclose both the light source and the adjustable optical element placed in the jig or jig stencil. Jerman et al. fails to disclose the adjustable optical element to be passively aligned using said jig or jig stencil and the holes therein to the other optical components, including said light source. The jig of Jerman et al. securely engages stationary optical components. Therefore, one of ordinary skill in the art would not have been motivated to modify the reference to additionally provide the adjustable optical element in the jig/jig stencil since it appears that such a modification would inhibit the desired motion of the adjustable optical element, thereby rendering the device inoperable for its intended use. Therefore, claims 1-7, 13-20, 26-31, 38 and 47-52 are allowable over the prior art of record.
